

Amy Dinh

Web Developer

Hi, I'm Amy, a front-end web developer with a background in Biological Sciences and professional experience in patient care and healthcare. I excel in crafting visually engaging and user-friendly web applications. My expertise lies in HTML, CSS, JavaScript, React.js, and WordPress. My passion for creating intuitive, accessible websites stems from a deep appreciation for inclusive design. With a focus on attention to detail, problem-solving, and collaborative outcomes, I aim to deliver impactful online experiences. I am committed to learning and adapting to new challenges and actively seek out new technologies to expand my skill set.
